2. The authority under Public Law 94 as interpreted in 23 Comptroller General 88, referred to in the second paragraph of your memorandum of 7 April, appears to be adequate authority for the establishment of such special working fund(s) whereby current Fiscal Year appropriations may be utilized during the period of availability of such appropriations. In view of the manner in which this Agency obtains its funds and, in accordance with an understanding with representatives of the General Accounting Office, it is our responsibility to ascertain that this authority is not used to permit supplementation of subsequent Fiscal Year appropriations. Consequently the necessary information in the form of firm estimates should be furnished as soon as possible in order that the working fund(s) may be established at the earliest practicable date.

3. It is suggested that for further clarification with respect to the availability of current Fiscal Year appropriations, a review be made of 21 Comtrpller General 1159.
